November 19th 2021

2nd International Scientific Conference – Economics, Politics and Management in Times of Change

Conference Description

The main objective of the conference is a mutual exchange of scientific results of scientific activities of researchers, teachers and professionals from universities, scientific and other institutes. For an efficient transfer of knowledge, connection among theory, research and practice are essential. The results of the research activities presented at the conference will bring additional value to the participants, however there is expected also a benefit in improvement of the education process.

Thematic approach of the conference – main topics, not limited only:

- Small and medium enterprises and the influence of crisis.
- Politics of the European union and their implementation on regional level.
- Competitiveness of the regions in the sectoral and departmental politics.
- Public administration and regional development. Rural development of agricultural areas.

Conference language:

English, Hungarian, Slovak
